PRESS RELEASE

HIGHLAND AVENUE

The City of Torrington will be performing road construction work to replace a large drainage pipe in the intersection of Highland Avenue and Riverside Avenue as part of the Highland Avenue drainage improvements project. This section of Highland Avenue will be closed to Eastbound traffic between Washington Street and Church Street for approximately five (5) days with detours in effect during this repair work. The road will remain open to Northbound traffic travelling from Church Street and High Street. It is anticipated that the repair work will begin on Tuesday October 11, 2016, weather permitting. A detour plan is available on the City of Torrington, Engineering Department web page.

The Highland Avenue drainage improvements project is scheduled to continue through October and November 2016. The drainage structure replacement work will not involve road closures; however single lane closures are to be expected with possible traffic delays. The drainage structure replacement work encompasses Highland Avenue from Riverside Avenue to Pondsides Lane.

Please call the **Engineering Department at 860-489-2235** for more information.

INTERSECTION DETOUR PLAN
